

# Welcome to: “CRAFTING WITH THE DREAM BROKER KIDS”

Right now, Dream Broker students have been working on their People’s Cup Project cups. The cups came in from SILT Studio in Regina & are made of clay. The students were able to watch an informative & fun video and then get to work designing their cups. From there they carved their custom design using a pen & paper clip. The students loved the process and will get to take home a cup to enjoy forever!
